

# **Le système de couleurs**

# La documentation

The screenshot shows the Bootstrap 4 documentation page for the 'Colors' utility. The page has a dark purple header with the Bootstrap logo and navigation links: Home, Documentation, Examples, Themes, Expo, and Blog. A notification banner at the top right says 'There's a newer version of Bootstrap 4!'. The left sidebar contains a search bar and a list of categories: Getting started, Layout, Content, Components, Utilities, Borders, Clearfix, Close icon, Colors, Display, Embed, Flex, Float, Image replacement, Position, Screenreaders, Sizing, Spacing, Text, Vertical align, and Visibility. The main content area is titled 'Colors' and includes a description: 'Convey meaning through color with a handful of color utility classes. Includes support for styling links with hover states, too.' Below the description is an advertisement for MongoDB Atlas. The 'Color' section lists the following utility classes: .text-primary, .text-secondary, .text-success, .text-danger, .text-warning, .text-info, .text-light, and .text-dark. Each class is followed by a sample of the text color it produces.
